ISCO PACKING

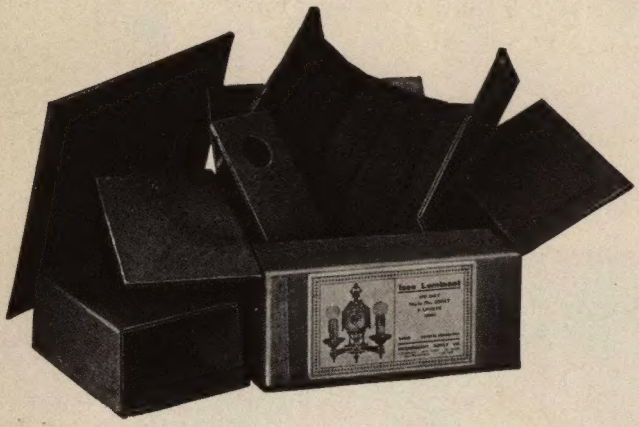

is one of the most important features of the merchandising of these Diamond Edge Luminants.

Each Luminant is wired, assembled with sockets connected—packed individually in a carton, which is plainly labeled showing the number, illustration of article, finish, lights, etc.

It is not necessary to break the seal or move the carton from the shelf to see what is contained therein.

This prevents loss and breakage, cuts handling costs, saves time and allows an adequate stock to be carried in a minimum space.

Also assures delivery in perfect condition.

There is no extra charge for packing.

TDCAT 1910 PAPV03B7823

foreword

The Diamond Edge Line of Isco Luminants illustrated in this catalogue has been beautifully designed and planned most carefully from a merchandising standpoint.

This line is especially interesting to the dealer for the fact that it covers the major requirements of residential lighting within a very compact range of numbers, while allowing a very satisfactory variety for selection.

Highest quality is assured as these luminants are made of the finest cast material, manufactured and finished by the highest class of workmen and artisans.

We make this line in (3) three finishes namely POLETTE, MAUVINE AND IRONE—so as to give a choice of finish and at the same time assure prompt delivery.

POLETTE FINISH is a beautifully blended light autumn leaf coloring combined with stippled ivory on a highly polished silver ground.

MAUVINE FINISH is a highly polished silver and gold with beautifying touches of stippled neutral mauve coloring.

IRONE FINISH is a soft mellow rusty iron finish combined with stippled ivory and gold trimmings.

These finishes are ideally harmonious colorings which will fit in any surroundings and add charm and beauty to the home.

WALL BRACKETS are wired with pull chain sockets.

DROP LIGHT LUMINANTS are wired with push sockets.

All CEILING LUMINANTS are wired with keyless sockets.

CANDLE LUMINANTS are wired with keyless sockets.

HALL LUMINANTS are wired with keyless sockets.
